"Brief History of the Revolutionary Activities of Comrade Kim Il Sung" comprises seven chapters on the 40-odd years of his revolutionary history, which describe his revolutionary family, his early revolutionary activities, the anti-Japanese armed struggle and his activities in the period of the country's liberation up to date.

Marshal Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, peerless patriot, national hero, ever-victorious iron-willed brilliant commander and one of the outstanding leaders of the international communist movement and working-class movement

The great Leader of the 40 million Korean people Comrade Kim Il Sung, peerless patriot, national hero, ever-victorious iron-willed brilliant commander and one of the outstanding leaders of the international communist and working-class movements, has devoted his all to the struggle for the freedom and happiness of the people and the victory of the revolution to this day for more than 40 years ever since he set out on the revolutionary struggle in his early years.

Bearing the destinies of the fatherland and the nation on his shoulders, Comrade Kim Il Sung has led the Korean revolution to victory and scored great shining achievements never known in any period of our country's history.

The history of the revolutionary activities of Comrade Kim Il Sung is a history of sanguinary struggle for the independence of the country and the liberation of the working class and other sections of the people, a glorious history woven throughout with his fervent love for the fatherland and the people and with his boundless fidelity to the revolution.

It is also a history of victories of the Korean people's national-liberation struggle and the communist movement of Korea, a history of creative development of Marxism-Leninism in Korea.

Comrade Kim Il Sung thoroughly established *Juche* in the Korean revolution and thereby opened up a new path for the communist movement and national-liberation struggle in Korea, delivered our country and nation out of the life-and-death crisis, and has led and is leading the Korean people correctly along the road of epoch-making change and prosperity.

Comrade Kim Il Sung applied Marxism-Leninism to the realities of Korea for the first time in the history of our country's communist movement and brought about its new development and, laying down a correct and original line of revolution and ways for its accomplishment, has tirelessly led the Korean revolution to victory.

The Korean people have registered brilliant achievements and great successes in the revolution and construction. All the victories and successes achieved by the Korean people are, without exception, associated with the wise leadership of Comrade Kim Il Sung.

Comrade Kim Il Sung has waged a tireless and unyielding struggle against the most outrageous Japanese imperialists and U.S. imperialists over a long period and given active support and assistance to the peoples of other countries in their revolutionary struggle, holding high the banner of proletarian internationalism.

By his profound and original theoretical and practical activities Comrade Kim Il Sung has made a great contribution to the international communist and working-class movements and the national-liberation struggle of the peoples in the colonial and dependent countries.

It is a boundless honour and bliss for the Korean Communists and people that they learn from the great Leader Comrade Kim Il Sung who is possessed of scientific revolutionary theory, a wealth of experiences, distinguished ability of leadership and high virtues and has led our people along the path of glorious victory through the long drawn-out tempest of revolution and that they live and fight as his faithful soldiers, upholding his leadership.

I

Comrade Kim Il Sung, the respected and beloved Leader of the Korean people, was born into the family of a poor peasant in Mangyongdae of Pyongyang (Nam-*ri*, Ko-pyong sub-county, Taedong county, South Pyongan Province at the time) on Apr. 15, 1912.

The family of Comrade Kim Il Sung is a patriotic and revolutionary family that have fought from generation to generation for the independence of the country and the freedom and liberation of the people against foreign aggressors.

His great-grandfather Mr. Kim Ung U was a patriot who led the battle for sinking the pirate ship "General Sherman" dispatched by the U.S. aggressors as a feeler for their aggression of our country in 1866.

His grandfather Mr. Kim Bo Hyon and his grandmother Mrs. Li Bo Ik, too, were patriots who, backing the revolutionary struggle of their sons and grandsons, remained profoundly true to their national principles without yielding to the harsh repression and persecution by the Japanese imperialists and fought tenaciously against the aggressors.

His father Mr. Kim Hyong Jik was a pioneer and outstanding leader of the national-liberation movement in our country. He had a strong patriotic anti-Japanese spirit and extraordinary talents and noble qualities.

Having embarked on the road of revolution with "Lofty Aims," he led the anti-Japanese struggle already in his secondary-school days and formed the Korean National Association in March 1917.

The Korean National Association raised the fighting task of firmly rallying broad patriotic anti-Japanese forces and achieving Korea's independence through the efforts of the Koreans themselves whenever there would be created a favorable revolutionary situation. It was a revolutionary organization most steadfast in the anti-imperialist stand and an underground anti-Japanese revolutionary organization biggest in the size and the sphere of activity, too, in the period prior to the dissemination of Marxism-Leninism in our country.

The Korean National Association under the guidance of Mr. Kim Hyong Jik spread its organizations extensively in different parts of the homeland and even abroad, and actively organized and mobilized the masses of the people to the anti-Japanese struggle, properly combining legal with illegal activities.

He, together with over 100 persons connected with the Korean National Association, was arrested by the Japanese imperialist police in the autumn of 1917.

With no amount of brutal torture and appeasement measure could the Japanese imperialist police break his lofty revolutionary constancy and fervent revolutionary spirit for the restoration of the fatherland.

Upon his release from prison, he moved his theatre of struggle to the northern borderland of our country and northeast China, and energetically unfolded revolutionary activities as the leading spirit of the anti-Japanese movements at home and abroad.

Mr. Kim Hyong Jik resolutely repudiated the futile attempt of the bourgeois nationalists to achieve "independence" by means of "petitioning" the Japanese imperialist rogues or with the "help" of the imperialist powers and, firmly adhering to the position that the restoration of the country should on all accounts be realized independently through the enlistment of the broad patriotic forces of the Korean people, conducted energetic activities for the union of anti-Japanese revolutionary forces and the unity and cohesion of their ranks.

Sensitive to progressive ideas, he always went deep among the working people to induce the revolutionary awakening of the masses for the new advancement of the anti-Japanese national-liberation movement in our country, and fought resolutely in defence of the interests of the people.

He set up schools in many places and made every effort to educate and train the rising generation in patriotism and new knowledge. Meanwhile, he devoted all his energies to bringing up his sons into ardent patriots, into fine revolutionaries.

He always told his sons about the beautiful mountains and rivers of the country and the struggle of its patriotic people, about the October Socialist Revolution in Russia and the latest world events.

Mr. Kim Hyong Jik was thus not only an indomitable anti-Japanese revolutionary fighter who devoted his whole life to the struggle for the independence of the country and the freedom and liberation of the people and a patriotic, revolutionary educator, but also an outstanding leader of the anti-Japanese national-liberation movement in our country.

Mrs. Kang Ban Sok, mother of Comrade Kim Il Sung, was also endowed with remarkable talents, a kind heart and strong character, and she was an anti-Japanese revolutionary fighter who fought unyieldingly against the foes.

In defiance of the abject poverty and the persecution by the Japanese imperialist police, she actively helped Mr. Kim Hyong Jik in his revolutionary activities, reared her sons steadfastly into ardent revolutionaries and Communists, and devoted her all to the education of the rising generation in pursuance of her late husband's will.

While operating as a member of the secret revolutionary circle organized by Comrade Kim Il Sung with communists in the Fusung area, she formed an anti-Japanese women's organization and, extending its organization to many areas, energetically organized and unfolded a struggle for the independence of the country and the social emancipation of women.

Though she was suffering from poverty and infirmity, she undertook to carry out difficult missions of underground work without regard to her own person, solely for the sake of revolution. Particularly, she devoted herself body and soul to helping Comrade Kim Il Sung in the work for founding the anti-Japanese guerilla army.

Thus, Mrs. Kang Ban Sok was an ardent Communist and prominent female political figure who devoted her all to victory of the Korean revolution as the wife of a revolutionary, as the mother who gave birth to and brought up Comrade Kim Il Sung, the great Leader of the Korean people.

Mr. Kim Hyong Gwon, uncle of Comrade Kim Il Sung, too, was an ardent revolutionary fighter and a staunch Communist who joined in the revolutionary struggle in his early years for the restoration of the fatherland.

He joined the Korean Revolutionary Army which had been organized by Comrade Kim Il Sung in preparation for the anti-Japanese armed struggle, and dauntlessly conducted armed operations in the northern areas of Korea in command of one of its details in the summer of 1930, and dealt mortal blows at the Japanese imperialists.

He was arrested by the Japanese imperialist police and imprisoned under a 15-year sentence. He died in prison, where he fought with an indomitable will to the end of his life for the victory of the Korean revolution without yielding to the brutal torture and any conciliatory measure of the enemy.

The two younger brothers of Comrade Kim Il Sung were also Communists who took part in the anti-Japanese struggle in their early years and fought stoutly.

His younger brother Comrade Kim Chol Ju was an indefatigable revolutionary figher who organized and conducted political work energetically among the masses as the leader of a local Young Communist League organization, sent to the anti-Japanese guerilla army many fine youths trained in the YCL organization, and died a heroic death in 1935 fighting in arms against Japanese imperialism.

His cousin Comrade Kim Won Ju, too, was a determined anti-Japanese revolutionary fighter who, in response to the anti-Japanese armed struggle organized and waged under the leadership of Comrade Kim Il Sung, formed underground revolutionary organizations with factory workers, youth and students and fought energetically against Japanese imperialism.

Mr. Kang Don Uk, grandfather of Comrade Kim Il Sung on the mother's side, and Mr. Kang Jin Sok, his uncle on the mother's side, were also anti-Japanese fighters who fought fiercely for the restoration of the fatherland.

As seen above, the family and relations of Comrade Kim Il Sung, the outstanding Leader of the Korean revolution and the great Leader of the Korean people—from great grandfather, grandfather, grandmother, father, mother, uncle, younger brothers to grandfather and uncle on the mother's side—fought passionately from generation to generation for the independence of the country and the freedom and liberation of the people.

Born in a revolutionary home, Comrade Kim Il Sung grew up in rough storms and tribulations when the whole country was pervaded with the indignation and agony of national ruin, while being educated in patriotism by his parents from his childhood.

He was inspired with patriotic ardor by the March First Uprising which was a nationwide anti-Japanese resistance struggle of the Korean people; nourished a fighting will to annihilate the enemy when he saw repeated brutal arrests of his father by the Japanese imperialist police; and influenced by his father's indomitable revolutionary activities, fostered strong patriotic anti-Japanese ideas and revolutionary class consciousness from unusually early years.

From his childhood Comrade Kim Il Sung was broad-minded and kind-hearted and, besides having unusual talents, was diligent and vigorous by nature.

Comrade Kim Il Sung always carried books in his hand. He eagerly read the biographies of famous patriotic generals of our country and great men of the world and regularly read newspapers already in his primary school days.

Thus, he not only gained the highest mark for every subject of study but also acquired a large store of knowledge about society in particular, thanks to the education by his father.

Grand Ceremony Held for Commissioning 6,000-Ton Press Shop at Chollima Kangson Steel Works

The workers of Kangson, the cradle of Chollima, who are racing ahead at "Kangson speed," the new Chollima speed, upholding the instructions of Comrade Kim Il Sung, the respected and beloved Leader, have completed with flying colours the construction of the 6,000-ton press shop, one of the new monumental edifices of the era of the Workers' Party, with our own equipment and materials and on our own technique.

A grand ceremony was held on Jun. 1 on the spot for commissioning the work shop.

Respectfully placed on the platform of the meeting place was a portrait of Comrade Kim Il Sung, the great Leader of the 40 million Korean people, who, taking upon himself the destiny of the fatherland and the nation for over 40 years up to date since he took the road of the revolutionary struggle in his early age, has led the Korean revolution along the one road of brilliant victory and built the daily prospering and developing socialist fatherland on this land and opened up the era of great national prosperity, the most brilliant era in the history of our people.

Present at the commissioning ceremony were Comrades Kim Il, Pak Jong Ae and Chong Jun Taek; and Chong Dong Chol, Minister of Forestry; Hong Song Ju, Chairman of the Materials Supply Commission; Kim Ung Sang and Rim Jin Gyu, Directors of Secretariats of the Cabinet; Li Gil Song, Chief Secretary of the South Pyongan Provincial Committee of the Workers' Party of Korea; and other functionaries of local Party and government organs.

At the ceremony which opened with the playing of the "national anthem" Comrade Kim Il read out a congratulatory message of the Central Committee of the Workers' Party of Korea and the Cabinet of the Republic to the entire workers, technicians and office employees who participated in the construction of the 6,000-ton press shop at the Chollima Kangson Steel Works.

The congratulatory message was accepted with a rousing ovation which shook the meeting place.

Comrade Kim Il Sung, the great Leader of the revolution, advanced the new task of building with our own technique, equipment and materials a 6,000-ton press which is of great significance in strengthening economic might and defence capacity, roused our working class to its implementation and personally visited, busy as he was with state affairs, the work sites for manufacturing and assembling the equipment and the construction site of the shop and showed great fatherly love for the workers.

Comrade Kim Il Sung, the respected and beloved Leader, taught as follows:

"We are today confronted with the weighty tasks of building the economy and defences in parallel to lay a firm material basis for the prosperity of generations to come and establish reliable economic foundations which will enable us to meet the great revolutionary event of the unification of the fatherland actively. All these tasks can be performed successfully only if the principle of self-reliance, the line of building an independent national economy, is firmly maintained and carried on more consistently."

Our heroic working class rose up as one in the honourable struggle to manufacture by itself a 6,000-ton press rare to be seen in the world, bearing deep in mind the teaching of the fatherly Leader and advanced, advanced, struggled and advanced in the spirit of Chollima, holding high the revolutionary banner of self-reliance.

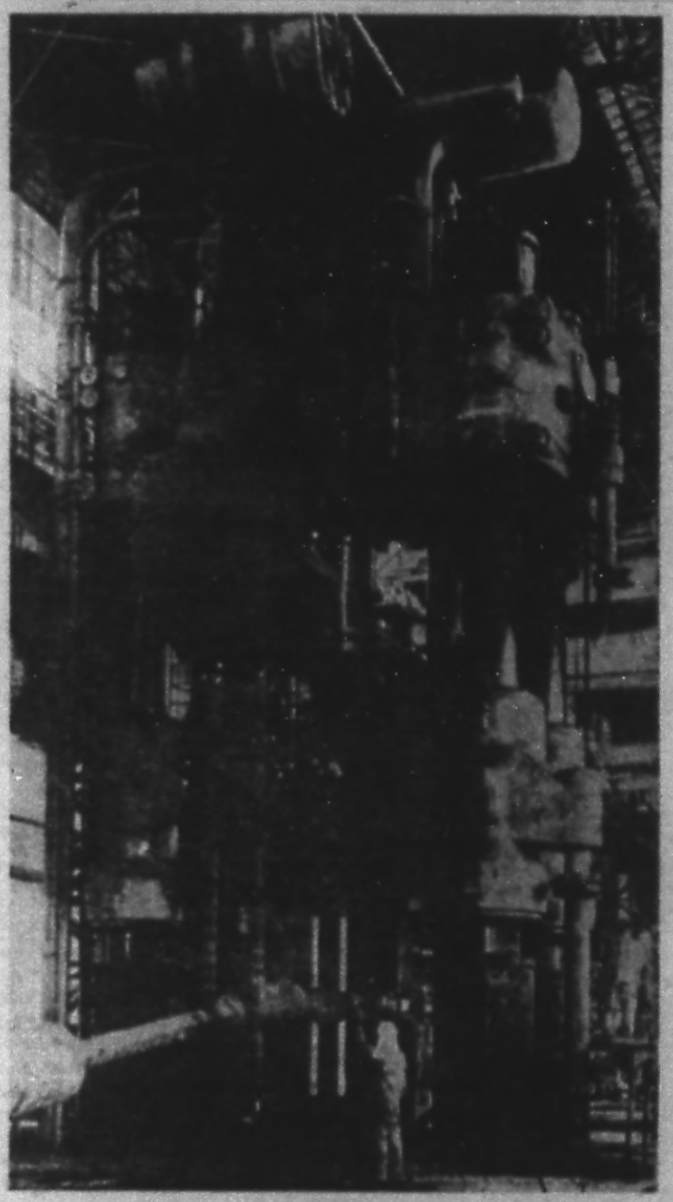
The Red machine builders of the Chollima June 15 Machine Plant, who undertook the manufacturing of a 6,000-ton press under the revolutionary motto "What the Party and Leader call for is our rated capacity and norm," creditably built this giant press as high as a nine-storied building and 2,000 tons in weight in a short span of time by boldly thinking and boldly practising and each doing two persons', three persons' shares, while producing necessary processing-equipment with their own efforts by making what they lacked and finding out what they were short of in the same spirit and stamina with which they had manufactured large-size processes holding aloft the teachings of the Leader.

Steel makers and machine builders throughout the country who undertook the production of large-size cast steel and equipment of various kinds needed for the building and operation of this huge press also successfully discharged their duty in time by raising higher the flame of the revolutionary upsurge with a singlehearted desire to display all their allegiance to the respected and beloved Leader.

The builders of the guard industrial construction office where comrade Li Ha Ryon works actively contributed to expediting the construction projects by setting new records day after day, carrying out the foundation work in 10 days or so and overfulfilling the daily plans 15 times in the work of erecting large-size steel columns through a socialist emulation drive among different presses and a spark-flying struggle.

Indeed, the successful construction of the 6,000-ton press shop powerfully demonstrates once again the correctness and great vitality of the great ideas of *Juche* of our Party created by Comrade Kim Il Sung, the respected and beloved Leader, and of his revolutionary line of independence, self-sustenance and self-defence.

A letter of pledge to Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, was unanimously adopted amid the enthusiastic applause of the attendants at the ceremony. (KCNA)



Holding high the teachings of the great Leader Marshal Kim Il Sung, the workers of the Chollima Kangson Steel Works have constructed the 6,000-ton press shop with their own equipment and materials and on their own technique.

More Mining Equipment Produced

High-efficient mining machines and equipment are being produced in great quantities these days to be sent to the ore and coal mines in all parts of the northern half of the DPRK.

Upholding the instructions of Marshal Kim Il Sung, the respected and beloved Leader, on assisting the coal industry through a mass movement to steadily improve its technical equipment, the workers and technicians of the factory where Kim Sok Min works have jerked up the production of coal cars 1.9 times, iron props 2.8 times and chain conveyors 2.5 times in the recent three months as against the corresponding period last year by raising high the flame of collective innovation.

They are doubling and trebling the production of accessory parts of mining machines and equipment and continuously upping the production of hewing and tunnelling machines and equipment including cylindrical coal cutters and props by improving irrational processes and introducing advanced techniques, following the revolutionary spirit of self-reliance displayed by the anti-Japanese guerillas who remained infinitely loyal to the Leader.

Members of a Chollima assembling work team are raising high the flames of revolutionary upsurge in production of mining equipment, upholding the on-the-spot instructions of Marshal Kim Il Sung, the great Leader.

Korean Working People Fulfil Yearly or First-Half Year Plans in Succession

The working people in various parts of the DPRK are fulfilling their yearly or first-half year plans in succession by vigorously dashing forward at "Kangson speed," the new Chollima speed.

They have waged a fierce socialist emulation from the outset of the year, firmly arming themselves with the great revolutionary ideas of Marshal Kim Il Sung, the great Leader of the 40 million Korean people. Thus, they have carried out their daily or monthly assignments far ahead of schedule from the beginning of the year and wrought a miracle by surpassing three months' quotas in a month. The ranks of factories, work shops, work teams and Chollima riders who have finished their yearly or first-half year plans are now steadily increasing.

Eight platoons of the mine where Yu Dae Hwa works hit their yearly plans some time ago. The Red workers of the mine have carried out their daily assignments at 200-300 per cent by boldly overcoming difficulties and obstacles and vigorously unfolding the high speed tunnelling movement, following the indomitable fighting spirit of the anti-Japanese armed guerillas who were infinitely faithful to the Leader, with the high honour and pride of working at the "Paekgeum-san" (white gold mountain) named by the great Leader.

The ranks of the yearly target hitters are also swelling among the geological prospectors, the scout of industry.

The Red Flag First Company of the geological survey unit where Li Min Gyu works, the Red Flag First Test Drilling Company, Third Company and Fourth Company of the geological survey unit where Li Jae Man works and many other companies and platoons of the geological survey units in all parts of the country have already fulfilled their yearly plans with credit by actively introducing the advanced surveying methods through the vigorous Red Flag Company Movement.

The flames of innovation are rising in all domains of the national economy.

The honoured disabled soldiers and their wives of the Honoured Disabled Soldiers Daily Necessaries Factory where Hyon Gil Man works have fulfilled as of the end of April this year's plan, set over 37 per cent higher than the production results of last year, at 105.3 per cent. They have trebled or quadrupled their daily assignments, engraving deep on their hearts the teaching of the Leader that flowers must be kept in bloom.

Besides, the first-half year targets have been hit by the colliery where Ku Il Man works, the railway stations where Kim Un Ru and Pak U Hum work, the factory where Kim Bok Hwan works, the automobile office where Li Jae Sop works and many other factories, enterprises, work shops and work teams.

The working people throughout the country are making continuous innovation and uninterrupted advance with a firm determination to capture all the heights of the Seven-Year-Plan before the historic 5th Congress of the Workers' Party of Korea by dashing ahead at "Kangson speed" without slackening their high revolutionary spirit.

C.C. of Union of Agricultural Working People of Korea Issues Appeal to South Korean Peasants

PYONGYANG, Jun. 8 (KCNA)—The Central Committee of the Union of Agricultural Working People of Korea recently issued an appeal to the South Korean peasants in connection with the fact that a serious spring famine and miserable overall food shortage, unheard-of in history, are now sweeping the countryside of South Korea which is in a state of total ruin owing to the colonial military fascist terror rule of the U.S. imperialists and the Pak Jung Hi puppet clique.

Saying that foodless peasant households account for 90 per cent of the total peasant households of South Korea, the appeal noted: Famine is sweeping all the rural villages of South Korea from the mountainous areas of South Korean Kangwon Province to big and small islands off the southern coast. It is especially serious in Ryongnam and Honam areas, which were known as granary. The number of peasants who desert their dear native villages, having lost a means of livelihood owing to famine is steadily increasing.

Worse still, the countryside of South Korea with no afforestation and water-conservancy facilities and with devastated irrigation setups is suffering from a new, great calamity owing to a long spell of drought this spring, too. Wheat and barley have all dried up and reservoirs which are hardly worthy of the name bared their bottom already in March in Suwon, Pyongtaek, Uijongbu and many other areas, with the result that even the rice seedling beds are not watered.

The appeal continued:

Under the wise leadership of Comrade Kim Il Sung, the great Leader of the 40 million Korean people and benevolent father of our peasants, all that we had aspired after so long has already been brilliantly realized in the northern half of the Republic.

The two different realities of the rural areas of the North and South clearly bespeak whether farming is successful or not and whether peasants live well or not depend not on natural calamity or any other factor but are an inevitable outcome of the difference of social system and policy.

The appeal referred in detail to the epochal changes which have taken place in the northern half of the Republic and to the happy life of our peasants.

Our countryside where life-giving water is brimming and farming is done by machines and chemicals has been visited by a bumper crop year after year and agricultural production has been on the steady increase, with the results that our northern half which had been short of food has long since turned into an area with food enough and to spare, the appeal wrote.

Noting that all these epochal changes in the northern half of the Republic and the happy life of our peasants are precisely a brilliant fruition of the great idea of *Juche* of Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, and attributable to his wise leadership and paternal solicitude, the appeal said.

Comrade Kim Il Sung, the peerless patriot, national hero and great sun of our nation, has led the Korean people along the one straight road of victory and glory, happiness and prosperity, personally pulling through any storm and stress, taking upon himself the destinies of the fatherland and the nation for over 40 years up to date since he took the road of the revolutionary struggle in his early age.

In order to translate into practice the great conception which he matured already from the period of the anti-Japanese armed struggle, always directing deep considerations to the solution of the peasant question and agricultural question he set forth an original line and policy on enforcing the most democratic land reform first of all after liberation and thus realized the age-old aspiration of our peasants for land, and opened up the correct road for socialist cooperativization after the war and led us to put an end once and for all to the sources of exploitation and poverty in the countryside.

Especially, Comrade Kim Il Sung, the respected and beloved Leader, authored the **"Theses on the Socialist Agrarian Question in Our Country,"** a great programme for the final solution of the rural question, and expounded with his genius the basic principles on thoroughly carrying out the technical, cultural and ideological revolutions in the countryside, strengthening in every way the working-class leadership over the peasantry, assistance of industry to agriculture and support of the town for the countryside and eliminating all the lag of the rural areas behind the towns in the form of ownership and level of economic management. The fatherly Leader thus opened up before our peasants a bright road to the complete victory of socialism and high eminence of communism, brought about nature-remaking changes in our countryside which had been deserted and backward for ages and reared our peasants into full-fledged socialist working people.

While leading our peasants in the northern half of the Republic along the road of a worthy, new life, Comrade Kim Il Sung, the brilliant Leader of the revolution, is always concerned with a fatherly feeling about the conditions of the South Korean peasants and people who are suffering under the heinous colonial military fascist rule of the U.S. imperialists and illumines the road of the South Korean revolution and national unification as brightly as a lighthouse. He taught that for rescuing the masses of peasants who make up the overwhelming majority of the South Korean population from poverty and hunger, the question of land should be solved and the agricultural productive forces be freed from feudal fetters and set forth a wise line on using the powerful economic foundations already laid in the northern half of the Republic in rehabilitating the devastated South Korean agriculture and building up the backward South Korean countryside into a modern countryside in the future.

It is Comrade Kim Il Sung, the respected and beloved Leader, who repeatedly stretched the hand of warm fatherly love to send tractors and modern farm implements and chemical fertilizers to the South Korean peasants, send rice, cloth and large quantities of other relief goods to the South Korean foodless peasants and calamity-stricken people, take into the northern half of the Republic a large number of the unemployed, vagrant orphans and youths and children who cannot study because they have no money and provide them with stable jobs, hopeful site of learning and a happy life.

Indeed, the paternal love of Comrade Kim Il Sung, the great Leader, shown equally for the entire Korean people including the peasants of North and South Korea cannot be compared with the height of the mountain or the depth of the sea.

There is no greater honour or happiness for us Korean people than to have as our Leader Comrade Kim Il Sung, the great Leader, brilliant teacher, benevolent father and the outstanding Marxist-Leninist of our era, who enjoys the undivided trust and respect of the world revolutionary people.

If you had lived in a paradise of people free from exploitation and oppression under the wise leadership of Comrade Kim Il Sung, the great Leader, you would have been long since freed completely from the miserable plight of famine and land desertion of today and would have built a rich, happy and new life.

The appeal quoted the following teachings of Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people: **"South Korea today has been turned into a complete colony of the U.S. imperialists, into their military base of aggression. The national industry of South Korea has been reduced to an economy dependent on foreign capital and its agriculture, too, is undergoing a serious crisis."**

The appeal continued:

The root cause of the bankruptcy of the South Korean agriculture is that the U.S. imperialists who are occupying South Korea leave intact the system of feudal exploitation in the rural areas to be favourable to their colonial domination and plunder and are continuously intensifying colonial exploitation and plunder of peasants in various ways.

The land ownership by landlords and the relations of feudal exploitation, predominent in the South Korean countryside, are one of the main factors that lead agricultural production to bankruptcy and deteriorate the peasants' living.

The usury debts of the South Korean peasants today amount to 30,000-40,000 *won* per peasant household on an average and the debts are increasing as the days go by.

The appeal went on:

In the period following the "military coup" alone, the rascals requisitioned by force over 130,000 *chongbo* of farm land as building sites of military bases, military establishments and military roads and are forcibly drafting a large number of youth and middle-aged into the puppet army and the "homeland reserve defence forces."

This year the U.S. imperialists and Pak Jung Hi puppet clique framed up a budget of the puppet government which is nine times as great as that just before the "military coup" and are wresting most of money from the peasants to squander it as military spendings.

On top of this, even the Japanese militarists who occupied our country and plundered in a brigandish way a huge amount of polished rice in the past are infiltrated deep into South Korea to lay the foothold of aggression and exploitation.

The foodless peasant households whose number reached 900,000 in the past when famine was most serious in South Korea have numbered 1,600,000 on an average a year in the 10 years after the rigging up of the Pak Jung Hi puppet regime and over 2,200,000 a year in the recent few years. This is precisely the miserable consequences of the brigandish exploitation and pillage by U.S. imperialism and its stooges.

All facts prove irrefutably that only by overthrowing the colonial military fascist rule of the U.S. imperialists and the Pak Jung Hi puppet clique and the feudal system of land ownership by landlords kept by them can the South Korean agriculture overcome its ruinous crisis and the South Korean peasants be released from today's sufferings and calamities.

Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, taught us as follows: **"Where there is exploitation and oppression, there always comes the resistance of the people. It is inevitable that the South Korean people should fight against the oppressors for their freedom and liberation."**

The appeal pointed out:

Today the South Korean revolutionaries and people, looking up with reverence to Comrade Kim Il Sung, the respected and beloved Leader, as the great sun of the nation, are valiantly fighting along the road of revolution indicated by him with the firm conviction of victory.

The South Korean people of various segments are more deeply studying the great revolutionary ideas of the Leader, his glorious and brilliant revolutionary history, the sagacity of his leadership and his lofty virtues, and the shout "Long live General Kim Il Sung!" and the singing of "Song of General Kim Il Sung" are ringing out more loudly from among people in all parts of South Korea, who are looking forward to the day of unification when they will enjoy a happy life in his benevolent bosom, reverently wishing the Leader good health and a long life.

The appeal referred to the fact that the members of the Revolutionary Party for Reunification and other revolutionaries and patriotic people of South Korea are forcefully developing their revolutionary struggle into the active anti-U.S., national salvation struggle of various forms, upholding the strategic and tactical line put forth by Comrade Kim Il Sung, the respected and beloved Leader, for the South Korean revolution and the unification of the fatherland.

The anti-U.S., national salvation struggle they are waging, the appeal stressed, is administering a heavy blow to the colonial military fascist rule of the U.S. imperialists and Pak Jung Hi puppet clique and plunging the villains into extreme horror and confusion.

The appeal resolutely condemned with surging national indignation the U.S. imperialists and Pak Jung Hi puppet clique who, flurried by this, are frantically intensifying the fascist suppression of South Korean revolutionaries and patriotic people under the name of "anti-communism" and the appeal said that the Central Committee of the Union of Agricultural Working People of Korea, in the name of the entire agricultural working people in the northern half of the Republic expresses warmest support to and militant solidarity with the South Korean revolutionaries, workers, peasants and the people of other sections in South Korea, who are courageously rose in the anti-U.S., national salvation struggle in the teeth of the sanguinary suppression by the enemy.

Comrade Kim Il Sung, the brilliant Leader of the revolution taught us as follows:

"The South Korean people should fight more stubbornly to oppose the occupation of South Korea by U.S. imperialism, smash its colonial rule and overthrow its stooges—the landlords, comprador capitalists and reactionary bureaucrats. The South Korean people can wipe out the oppressors and attain genuine freedom and liberation only through their own determined struggle."

The entire South Korean peasants must strengthen the militant alliance with the working class and fight on more valiantly along the road of the revolution indicated by the Leader.

Saying that the occupation of South Korea by the U.S. imperialist aggressors is the root cause of all the miseries and sufferings of the South Korean peasants, the appeal pointed out the South Korean peasants must raise higher the flame of the anti-U.S., national salvation struggle for driving out the U.S. imperialist aggressors and overthrowing their colonial rule and severely punish in the name of the people the Pak Jung Hi puppet clique, the stooges of the U.S. and Japanese imperialists and the despicable traitors to the nation, who are hard at work to remain in "office" for long term.

It stressed that the reinvasion of South Korea by the Japanese militarists, the sworn enemy of our people, must be thoroughly smashed.

The South Korean peasants must stubbornly fight for the enforcement of a democratic land reform, for the liquidation of the cursed feudal exploitation, for the frustration of the criminal manoeuvres for a new war of the U.S. imperialists and the Pak Jung Hi puppet clique, for the opposition of forcible requisition of youth into the puppet army and forcible training in the "homeland reserve defence forces" and staunchly fight for the restoration of land occupied for the military use and in demand of the compensation for damage done to the crops due to the war preparations of the enemy.

The appeal said that an active struggle must be waged to establish genuine people's power defending the interests of workers, peasants and other strata by revolutionary violence, struggles of all forms must be subordinated to seize power.

It called for struggling to achieve the independent peaceful unification of the fatherland.

The South Korean people and peasants must unfailingly arm themselves with the great revolutionary ideas of Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, for winning the victory in all their righteous struggles, the appeal stressed and continued:

The revolutionary ideas of Comrade Kim Il Sung, the respected and beloved Leader, is the only guiding idea, creatively applying Marxism-Leninism to the concrete realities of our country and the thorough idea of *Juche* run through with the principles of independence, self-sustenance and self-defence.

There are for the fighting South Korean peasants and people the great revolutionary ideas of Comrade Kim Il Sung, the brilliant Leader of the revolution, and his wise leadership, and the powerful revolutionary base of the northern half of the Republic and the militant support and encouragement of the people in the northern half and the internationalist support of the revolutionary people the world over.

Victory is in store for the South Korean peasants and people who have risen up in a just cause.

Let us fight more vigorously and more valiantly for the victory of the South Korean revolution and the day of national unification, united ever closer around Comrade Kim Il Sung, the great Leader of the 40 million Korean people, peerless patriot, national hero, ever-victorious iron-willed brilliant commander and one of the outstanding leaders of the international communist movement and working-class movement, the appeal stressed.

S. Korean Villagers Overflow with Feelings of Deep Trust in, Adoration for Marshal KIM IL SUNG

According to a South Korean press report, the brilliant reality of the northern half of the DPRK which is making a leaping advance, working new miracles day after day under the wise leadership of Marshal Kim Il Sung, the great Leader of the 40 million Korean people, is evoking ardent longing among the South Korean people who are subjected to misfortune and sufferings in darkness under the U.S. imperialist occupation.

A certain Choe, a worker residing in Sinjang-*ri* village, Pyongtaek county, Kyonggi Province, has tirelessly explained and propagandized among the villagers for a long period the immortal history of the revolutionary activities of Marshal Kim Il Sung, the brilliant Leader of the revolution, and his revolutionary exploits and the sagacity of his leadership and lofty virtues.

He has ardently praised and introduced to the villagers the brilliant reality of the northern half of the Republic where the entire people enjoy freedom and happiness and sing their life to their hearts' content under the benevolent care of Marshal Kim Il Sung, the sun of the nation, who restored light and freedom for the people and brought them happiness and prosperity.

In his courageous activity he turned to account Radio Pyongyang as a chief means of education.

According to the report, he called together villagers in his house by stealth and let them listen to Radio Pyongyang.

Radio Pyongyang instilled into the villagers infinite confidence by bringing them to the knowledge that under the wise leadership of Marshal Kim Il Sung, the great Leader, and his warm care, the entire brothers and sisters in the northern half of the Republic are now enjoying freedom and happiness to their satisfaction in a land which has been turned into a paradise for the people and they are accelerating socialist construction, upholding with heart the teaching of the Leader.

Through all these courageous and energetic propaganda activities, Choe, a worker residing in Sinjang-*ri*, has imbued the minds of the villagers with the revolutionary ideas of Marhsal Kim Il Sung, the great Leader, and rallied them closer around the Leader.

In this course, the villagers redoubled their courage and hardened their will to live and fight unyieldingly, as taught by Marshal Kim Il Sung, the fatherly Leader of the 40 million, and beat down the U.S. imperialists and their stooges.

The puppet Pak Jung Hi fascist gang arrested Choe on May 9 and have since been committing shuddering brutalities against him, by brandishing the notorious "Anti-Communist Law," the report said.

But, with no amount of repression can the puppet gang dampen the feelings of ardent adoration for the fatherly Leader burning in the hearts of the millions of South Korean people or break their firm determination to live and fight in accordance with his teachings.

Meanwhile a certain Kim, youth residing Taedo-*ri* Twajong *myon*, Ryochon county, South Cholla Province, introduced and propagandized at a place where a crowd of seashore inhabitants were assembled. The happy life of the people in the northern half of the Republic, warmly praising the northern half which has turned into a paradise good for the people to live in under the wise leadership of the great Leader Marshal Kim Il Sung, the sun of the nation.

People who gathered there were deeply moved when the youth told them the stirring story of the worthy and happy lot of the fishermen in the northern half who are leading a bountiful life, catching fishes to their satisfaction with up-to-date fishing facilities and fishing tackle.

The traitorous Pak Jung Hi clique, the mangy dogs of U.S. imperialism running wild in fascist suppression, upset by the daily growing revolutionary spirit of the South Korean people, arrested this youth on May 19 and are plotting to punish him under the notorious "Anti-Communist Law," according to the report.

302nd MAC Meet Held

DPRK Side Denounces Armed Provocations of U.S. Imperialists

KAESONG, Jun. 9 (KCNA)—The 302nd meeting of the Military Armistice Commission was held at Panmunjom at the proposal of our side.

At the meeting our side lodged a strong protest with the enemy side in connection with the fact that the U.S. imperialist aggressors had again committed recently a grave armed provocation against our side in the sea and introduced into South Korea military aircraft and other new-type combat equipment in gross violation of the armistice agreement while frantically raising war clamours in South Korea and intensifying malicious provocative acts against our side in the area along the Military Demarcation Line and in the air and sea, and called it to account for this.

According to the statement made at the meeting by Major General Ri Choon Sun, Senior Member of our side, the U.S. imperialists infiltrated by stealth the "I-2," an armed spy ship of the U.S. imperialist aggressor forces, on the morning of Jun. 5 into the coastal waters of our side off South Hwanghae Province, taking advantage of a mist and poor visibility and attempted to conduct espionage acts and kidnap our fishing boats engaged in normal fishing.

The "I-2," the armed spy ship of the U.S. imperialist aggressor forces, after intruding deep into the sea off Haeju, the coastal waters of our side, paid no heed to the order of the patrol ships of our side to stop and, furthermore, suddenly opened fire at the patrol ship of our side and showered bullets and shells at random on the fishing boats of our side, too, and fighter planes of the U.S. imperialist aggressor forces appeared and strafed the patrol ships and fishing boats of our side and a furious artillery barrage came from the Yonpyong-*do* Island.

The seamen of our People's Army were compelled to return fire in self-defence, unable to tolerate any longer the desperate hostile acts of the enemy.

Under the powerful fire returned by our side, the "I-2," the armed spy ship of the U.S. imperialist aggressor forces, was destroyed irreparably and sent to the bottom of the sea.

The just step taken by our People's Army against the "I-2," the armed spy ship of the U.S. imperialist aggressor forces, which intruded deep into the coastal waters of our side to perpetrate vicious hostile acts, was an exercise of our legitimate sovereignty and a deserved punishment to the aggressors.

Our people thus thwarted another malicious provocative act of the U.S. imperialist aggressors, defended the coastal waters of the fatherland and firmly protected our fishing boats from kidnapping by the enemy.

The senior member of our side stated that the most vicious military provocations of the enemy side in the sea off Haeju, which had been organized and planned beforehand, were unpardonable acts of aggression against our people and a direct product of the U.S. imperialists' policies of aggression and war for the provocation of a new war in Korea.

He strongly demanded the enemy side frankly admit the criminal acts committed in the coastal waters of our side, apologize to our side for this, sternly punish the prime movers who organized and commanded the incident and all the criminals involved in it according to the provisions of the armistic agreement and guarantee against the recurrence of such provocative acts.

According to the statement of Major General Ri Choon Sun, Senior Member of our side, at the meeting, the U.S. imperialist aggressors committed a hostile provocative act with a vicious gun firing toward posts of our side with the 57mm recoilless guns by mobilizing over ten armed bandits in the central sector of the front at around 16 hours on Jun. 3, which coincided with a hostile provocative act of firing bullets with various types of automatic weapons toward posts of our side.

And the U.S. imperialist aggressors, at around 23 hours 45 minutes that night started firing bullets and shells provocatively with three heavy machineguns toward the portion of our side in the Demilitarized Zone and the area of our side north of the River Rimjin-*gang* from height 69 and height 38 on the southern bank of the river Rimjin-*gang* in the western sector of the front.

The U.S. imperialist aggressors, signalled by this, set in motion four more machineguns and many automatic weapons in firing at the area of our side from a number of places on the southern bank of the River Rimjin-*gang* in that region.

The vicious hostile provocations of the U.S. imperialist aggressors lasted till 24 hours that night, in which the enemy fired tens of thousands of rounds of ammunitions toward the area of our side from over ten heavy machineguns and many other automatic weapons.

But, three reckless hostile provocations of the U.S. imperialist aggressors met deserving retaliatory blows from sentinels of the Korean People's Army who returned a timely and powerful fire.

All these facts, the Senior Member of our side stressed, clearly indicate that the U.S. imperialist aggressors are the very criminals and warmaniacs that are stubbornly persisting in armed provocations against our side and increasing tension in Korea to unleash a new war of aggression in Korea.

After sternly protesting to the enemy side and calling it to account for the big-scale firing of bullets and shells committed again by the U.S. imperialist aggressors against our side in gross violation of the armistice agreement, the Senior Member of our side demanded the enemy side:

1st. To frankly admit the grave hostile provocations committed by the U.S. imperialist aggressors and apologize to our side for them;

2nd. To severely punish the prime movers who organized and commanded the recent hostile provocations and all the criminals involved in them;

3rd. To give responsible assurances that it will strictly observe all the provisions of the armistice agreement;

4th. Not to commit again such hostile provocations against our side in the future.

At the meeting our side lodged a strong protest with the enemy side in connection with the fact that the U.S. imperialist aggressors are creating tension by perpetrating all kinds of hostile provocations against our side in the Demilitarized Zone, crudely violating as ever the provisions of the armistice agreement, and called it to account for this.

According to the statement of Major General Ri Choon Sun, Senior Member of our side, at the meeting, the U.S. imperialist aggressors committed reckless rifle firing toward the area of our side with light machineguns and other automatic weapons from May 20 to June 2.

Besides, the U.S. imperialist aggressors perpetrated the hostile act of firing hosts of shells and bullets in the area along the Military Demarcation Line with 81 mm mortars and other heavy weapons and automatic weapons illegally brought into the Demilitarized Zone in the period from May 13 to Jun. 6.

Pak Clique Suppress Author of "Five Traitors" And Pressmen

The May issue of the "Sasangge," a South Korean monthly magazine which carried a poem entitled "Five Traitors" exposing the foul crimes of the Pak Jung Hi puppet clique

According to a report from Seoul, the Pak Jung Hi puppet clique committed a fascist outrage arresting and imprisoning on Jun. 2, under the notorious "Anti-Communist Law" three persons—a certain Kim, the author of a poem entitled "Five Traitors" exposing the foul crimes of the puppet gang, and publishers of the journal and newspaper which carried the poem.

Earlier, the puppet gang had committed the barbarity of seizing and taking away more than 100,000 copies of the newspaper carrying the poem and its printing equipment.

Threatening more arrests of journal and newspaper publishers, the gangsters are trying to force the newspaper and journal to cease to publish "of their own accord."

This is a continuation of the usual repression of the press by the gangsters who brazenly force the press to keep its mouth shut on any crime of theirs.

According to the report, the poem branded the "administration," national assembly, "machinery of the law" and "military" that form the Pak Jung Hi puppet clique, a tool of U.S. imperialist colonial rule, and the chieftains of the comprador capitalists as "Five Traitors," and satirically exposed all the treacherous crimes committed by these villains against the country and the nation.

The barbarous repression of the press by the Pak Jung Hi traitors only reveals the desperate wriggle of the rascals at death's door.

Over 20,000 Leaflets Scattered in Pusan Flaying Press Gag

According to a radio report from Pusan, more than 20,000 leaflets sharply flaying the fascist gag put upon the press by the Pak Jung Hi puppet clique were scattered in streets of Pusan on Jun. 4.

Youths in their thirties of several groups scattered these handbills at the same time, riding in cars at four places in the main streets and in front of markets in the city from 7:30 to 9:00 in the morning.

The handbills were inscribed with slogans denouncing the Pak Jung Hi puppet clique, the running dogs of the U.S. and Japanese imperialists, such as "the nation is resented at desparate acts of the Pak regime," "the present regime must not stuff the ears and seal the mouths of the people" and "repression of the press is a threat to democracy" and so forth.

This was part of the struggle against fascism and for democracy the South Korean youths and people were strenuously waging, and was directed against the fascist repression of the press by the Pak Jung Hi puppet clique.

The Pak Jung Hi puppet clique, driven into a state of thorough discomfiture by the handbills denouncing their fascist outrage, which had been scattered in the main streets, let loose the puppet police in the whole streets of Pusan and kicked up a frantic din of "search," raging about in fury.

Criminal Intrigue of U.S. Imperialists to Drag Out S. Korean Youth for Their Aggression against Cambodian People

According to reports, the U.S imperialists are now scheming to drive out South Korean puppet troops as cannon fodder for their aggression against the Cambodian people.

The South Korean puppet clique, the running dog of the U.S. imperialists, on orders of their master, held a number of working-level officials talks behind the closed doors with the Thieu-Ky clique and Lon Nol-Sirik Matak clique, the lackeys of the U.S. imperialists, in Saigon and Phnom-Pehn respectively to put into effect the heinous intrigue of their master and are now bestirring themselves to drive out the South Korean puppet troops to the battle grounds of aggression in Cambodia.

The U.S. imperialists and the traitorous Pak Jung Hi clique, their running dog, are clinging to a crafty deceptive ruse in a foolish attempt to ward off, even a little, the denunciation of the entire Korean people and the world people against their unpardonable crime.

The scoundrels are trying their hardest to creat the impression that the planned dispatch of South Korean puppet troops to Cambodia will not be sent from South Korea, but over 50,000 South Korean troops already in South Vietnam will be "sent to Cambodia" and that the direct "assistance" of South Korean to the Lon Nol-Sirik Matak reactionary clique will be "confined only to medicines, clothes and other non-military goods."

But, this is a 3rd-rate trick of those who fear public opinion.

As already known, the U.S. imperialists and the Pak Jung Hi puppet clique attempted to fool the people with the same trick which they employed while committing the criminal act of dispatching South Korean puppet troops in active service to the fields of the aggressive war in South Vietnam.

Moreover, the gangsters secretly sent and are sending more and more South Korean puppet troops in active service to South Vietnam to fill up a blank resulting from wholesale death of South Korean puppet troops driven to the frontline as bullet-shields of the U.S. imperialists. Therefore, the figure "50,000" of South Korean puppet troops at the frontline in the aggressive war in South Vietnam is an "index" denoting the permanent level of numerical strength. In fact, 200,000 South Korean puppet troops far surpassing the "index" were sent to South Vietnam. According to extremely watered-down figure released by the Western press, more than 20,000 South Korean puppet troops died a dog's death in South Vietnam.

The U.S. imperialists have already decided to herd out South Korean puppet troops as cannon fodder for their aggressive war against the Cambodian people and are now urging the Pak Jung Hi puppet clique to carry into effect the plan. This vicious move once again shows with recklessly the U.S. imperialists, who have used South Korea as their military base for aggression and its military potentials to execute their policy of aggressive war, while stepping up the preparations for the provocation of a new war of aggression in South Korea, are now trying to make South Korea a scapegoat of their Asian aggression.

The South Korean youth and people will hold higher the banner of the anti-U.S., national salvation struggle to sweep away the U.S. imperialists, the ringleader of aggression, and the Pak Jung Hi puppet clique, their running dog, to the last man.

(Continued from page 5)

And the U.S. imperialist aggressors infiltrated several armed bandits into the area of our side at around 18 hours on May 14 with the purpose of armed attacks on our side.

The U.S. imperialist aggressors committed the criminal act of illegally introducing armoured cars and 90 mm recoilless guns and other guns of various calibres into the Demilitarized Zone.

The U.S. imperialist aggressors perpetrated the criminal act of sending a military plane into the air above the Demilitarized Zone between 10 hours 55 minutes and 11 hours 5 minutes on May 19.

The Senior Member of our side said that the tension in Korea is being further aggravated with each passing day owing to all these criminal acts committed by the U.S. imperialist aggressors as a link in the chains of their consistent manoeuvres for the provocation of a new war.

At the meeting our side filed a vehement protest with the enemy side against the frantic rackets for the provocation of a new war which the U.S. imperialists are raising while bringing military planes and other new-type combat equipment into South Korea in gross violation of the Armistice Agreement and, called it to task for this.

And the U.S. imperialist aggressors brought scores of large transport planes "C-54" from the United States and transferred them to the South Korean puppet army.

Saying that our side could not but pay serious attention to the fact that the U.S. imperialist aggressors are raising war exercise rackets every day under a simulated condition of a surprise attack on the northern half of the Republic, while perpetrating vicious armed provocations against our side, and on the other hand, are amassing in South Korea quantities of combat equipment including new-type aircraft and aggressive forces needed for the provocation of a new war, the Senior Member of our side strongly demanded the enemy side to ship out of Korea without delay all sorts of military aircraft and large quantities of combat equipment and aggressor armed forces introduced into South Korea.
